

IB and MEXT presents  
(in cooperation with MEXT Consortium)  
**IB Education eForum Japan 2020**  
**12 to 13 September**

**Theme: Agency by Design**

IB is the first global educational organization to promote and implement the development of children's agency. This new concept of education, with its core, will gradually be implemented and cover all IB programmes for ages 3-19, leading to an overall upgrade of IB standards and practices, curriculum, pedagogy and professional development. This year's online IB Education Forum Japan 2020 provides a community platform for teachers to learn and think about agency, how agency can be developed through leadership in schools and what are the recent developments in IB programmes that will support this. We welcome all educators from IB World Schools, candidate schools, and interested schools to participate. Please note that this event is an abridged form of an event that was planned for this February 23rd but had to be postponed due to the evolving COVID-19 situation.

**Registration details**

**Language:** All keynote and breakout sessions will be delivered in Japanese

**Date:** 12 to 13 September (Saturday to Sunday)

**Time:** 2.00pm – 4.15pm (Tokyo time GMT+9)
