IB eSeminar on the 'IB PYP in an Early Years setting'

As a leader in international education, the IB prescribes a set of learner profile attributes that describes a broad range of human capacities and responsibilities that go beyond academic success. The IB Primary Years Programme (PYP) framework is flexible enough for schools to align and localize their curriculum by incorporating local education requirements. In addition, the inquiry-based and concept-driven teaching model can be used as a reference by schools for developing the key competencies and holistic development of their students.

The eSeminar on 'IB PYP in an Early Years setting' for schools is a primer for early years education providers and educators in implementing the PYP in the early years setting (for students age 3 to 6). Join us in discovering the early years education trends as well as implementing the IB PYP in the early years setting. Sessions will be led by expert and practitioner.
