Register Now

The International Baccalaureate (IB) is a global leader in international education—developing inquiring, knowledgeable, confident, and caring young people. Our programmes aim to empower school-aged students to take ownership of their own learning and help them develop future-ready skills to thrive in a rapidly changing world.

There has been a steady increase in the number of DP students in Japan entering Japanese universities over the past ten years. To enhance the deeper understanding of the IB education and merits of welcoming DP students at your intuitions, the IB has developed a series of eSeminars in Japanese.

This seminar focuses on the DP assessment, which includes a brief introduction of the variety of assessments for each subject and core elements in the Diploma Programme, as well as the moderation of the assessment materials. Admission offers and faculty members at universities in Japan are welcome to join.

Contact: Ayako Kurokawa, IB Associate Business Development Manager, Japan (ayako.kurokawa@ibo.org)
