
Available Position: Physics Teacher (IBDP)
Aoba-Japan International School - Bunkyo Campus

【About Aoba-Japan International School】

Aoba-Japan International School is a leading international school in Tokyo, offering world-class education from early years through to university preparation.

Our Bunkyo Campus serves students aged 16-18 who are pursuing the International Baccalaureate Diploma Programme (IBDP) and the Global Leadership Diploma (GLD). We are committed to developing well-rounded individuals who excel academically whilst growing personally and contributing positively to our school community.

【The Role】

We are seeking an enthusiastic and knowledgeable Physics teacher to join our team at the Bunkyo Campus. The successful candidate will teach IB Diploma Programme Physics at both Standard Level and Higher Level. This is an exciting opportunity to work with motivated students in their final years of secondary education, inspiring them to explore the natural world through scientific enquiry and investigation.

【Key Responsibilities】

- Deliver engaging and rigorous IB Physics courses at SL and HL
- Plan and implement practical laboratory work and theoretical lessons that develop scientific skills
- Assess student progress through formative and ongoing assessment aligned with IB requirements
- Prepare students thoroughly for IB examinations and Internal Assessments
- Foster a positive classroom environment that encourages scientific thinking, enquiry, and experimentation
- Support students' personal growth and wellbeing alongside their academic development
- Maintain and develop laboratory resources and ensure safe working practices
- Contribute to the wider school community through involvement in activities, events, and pastoral care
- Collaborate with colleagues across the sciences and other departments to share best practice
- Engage in professional development opportunities to enhance teaching practice

【Essential Qualifications and Experience】

- Bachelor's degree in Physics or a closely related field
- Recognised Teaching qualification
- Minimum of two years' teaching experience
- Experience teaching IB Diploma Programme Physics preferred
- Strong understanding of the IB philosophy and learner profile
- Excellent classroom and laboratory management skills

【Commitment to student wellbeing and holistic development】

- Desirable Qualifications and Experience
- Postgraduate qualification in Education, Physics, or a related field
- Experience teaching Physics at Higher Level
- Experience with IB Internal Assessment moderation
- Familiarity with Japanese culture
- Additional subject areas or co-curricular strengths

【What We Offer】

- A supportive and collaborative working environment
- Well-equipped science laboratories and facilities
- Professional development opportunities, including IB training
- The chance to work with great students
- A positive school community
- Competitive salary and benefits package
- Support for teachers pursuing their professional goals and aspirations
- The opportunity to live and work in Tokyo, one of the world's most vibrant cities

【How to Apply: Interested candidates should submit the following via email】

Needed ASAP

- A cover letter addressing the key requirements of the role
- Current curriculum vitae
- Contact details for two professional referees
